Transportation ([Atatürk Airport](#))

- The easiest way of travelling to Eskişehir from İstanbul is using the public metro [M1A](#) under [Atatürk Airport](#) which is open between 06:00 – 24:00. When you get to the airport, you'll have to find a way down to the metro which you'll easily recognize by signs. When you reach to the metro entrance, you'll see token/coin devices & a card device(at the beginning of that device line on the far left) According to your preference you pay 10TL and get an İstanbulCard loaded with 4TL(Turkish Lira) or a coin/token which will cost around 4TL. The difference is when you have the card every time you use it to pass for metro/bus/tram in İstanbul it will cost you 2.1TL per travel if its loaded and 1.05TL if you use a connection(getting off from one public transportation service to another). If you plan to spend some time in İstanbul before & after your travels we recommend you to buy this card at the beginning, which is much less costly & convenient. In both cases you'll get a kind of receipt from the devices you get the token or the card. Please do not forget to bring it to us, to Eskişehir with you. Both devices only accept paper money, which in this case is 5TL-10TL-20TL... Whichever amount you use, you'll get the money back from these devices most probably as change. If the devices do not give any receipt/sales slip there is a guy near the place you pass with your card/coin in a transfer control counter. He is usually wearing an orange vest. You can ask him receipt(«FİŞ» in Turkish) by showing the coin or card stating that the machine did not give the receipt back when you bought that. He would be able to provide the receipt, if not you can inform us when you arrive.
- To exchange your money, there are several locations(banks & exchange offices) when you get out of the first doors with your luggage turn right and left and you'll see them(they're opposite to Cafe NERO) when you follow the same way to the right you will see an escalator (opposite to Starbucks Coffee) which could take you to the metro entrance when you go down, walk straight, turn right & walk straight. For further info check out Atatürk Airport link above.

Transportation (Atatürk Airport)

- *When you take the metro from Atatürk Airport you'll get off in Otogar(Coach Station) there are announcements in English in the metro plus you'll see the names of the stops above the doors. When you get out in Otogar and get out of the building you'll see several bus companies. There are 3 bus companies that you can travel with to Eskişehir. [Kamil Koç](#), [Anadolu](#) & [İsmail Ayaz](#). You can buy your bus ticket from any of them and they have bus services every half an hour. The latest bus is 02:00 at night and earliest is 06:00 in the morning and in between there is a bus service every hour(06:00-07:00-08:00.....24:00-01:00-01:30-02:00) The price is between 35-40 Turkish Lira.*
- *Since there are 3 bus companies travelling every hour to Eskişehir, we recommend you to buy your bus ticket in Coach Station/Otogar if possible thinking a flight delay risk. On the other hand, if you have time flexibility in reaching to Eskişehir, you can also buy your ticket online from the links we've provided above or by clicking on company logos below.*

Transportation ([Sabiha Gökçen Airport](#))

- *To exchange your money, there are several locations(banks & exchange offices) when you get out of the first doors you will be able to see them on both sides of the level prior to exit. When you get out of the airport, the busses named «[HAVATAŞ](#)» are right infront of you. You can see the departure schedule by clicking on the [link](#).*
- *From Sabiha Gökçen Airport you have to take a bus to Kadıköy(recommended) or Taksim. On both locations you can find the sales spots of Kamil Koç. But our recommendation is to go to Kadıköy and walk from spot A to spot B on the map we've provided below in order to reach Kamil Koç Ticket Sales Office. From the same office you can buy your ticket to Eskişehir and they are able to provide you a free-service to the departure point of the busses from İstanbul to Eskişehir. The times for busses can be learned by clicking on the company logo below.*
- *FOR BOTH SABIHA GÖKÇEN & ATATÜRK AIRPORTS, BUS COMPANIES HAVE FREE TRANSPORTATION SERVICES TO THE AIRPORT ON YOUR WAY BACK TO YOUR COUNTRIES.*

Transportation (Eskişehir)

- By clicking on the Google Maps link(right top of the page) you can see the arrival points in Eskişehir.
- When you arrive to the bus station, you'll see that there are small shops within the station which sell the cards below, but the main sales point is outside the station on the way to the tram which is a small counter completely dark green. It is on the way to the tram so easily recognizable. You have to buy a ticket from there as below and it will cost you around 2,5TL.
- From the bus station, you've to take the tram written SSK-OTOGAR on it. You have to get off on Anadolu Universitesi stop which is the closest point both to your accomodation & training location.
